Photo Intelligence Memorandum

HAJDUSAG PHARMACEUTICAL FACTORY  
DEBRECEN, HUNGARY

GP/I-8  
(Project 71.113)

7 June 1954

Declass Review by NIMA/DOD

CENTRAL INTELLIGENCE AGENCY  
Office of Research and Reports

S-E-C-R-E-T

HAJDUSAG PHARMACEUTICAL FACTORY  
DEBRECEN, HUNGARY

This report is submitted in compliance with a request from OSI/Med for a photo intelligence study of the Penicillin Factory at Debrecen, Hungary.

Detailed photo and ground intelligence searches were made at USAF/ACIC, CD/Graphics Register, and CD/Industrial Register. Four ground photographs were obtained of the installation and are attached hereto. The latest available aerial photography, dated 25X1D [REDACTED] was studied, but none of the structures shown in the ground photography were observed. This substantiates ground intelligence reports that the factory is new.

The results of this interpretation and photogrammetric analysis are forwarded herewith in the form of an artist's sketch prepared by RR/GC under the direction and close supervision of RR/GP. The requested metrical data is annotated on the sketch and may be assumed to be accurate, plus or minus 10%.
